

VU NGOC THU HA

Hanoi, Vietnam • vungocthuha2002@gmail.com • (+84)944112409

Profile

I hold a B.Eng. in Chemical Engineering and have several years of experience in teaching, academic research, and student learning activities. My experience in the classroom gradually led me to become interested in how teaching methods can be adapted to different learners and how learning can be made more engaging and effective. Through my academic work, I have further explored Design Thinking and the use of AI in education. I now hope to pursue graduate study in Education to deepen my understanding of student-centered learning and explore how technology and innovative teaching approaches can improve learning experiences in higher education.

Research Interest

Educational Technology • AI in Education • Design Thinking in Education • Student-Centered Learning • Higher Education • STEM Education

Education

Hanoi University of Science and Technology

Bachelor of Engineering in Chemical Engineering

Sep 2020 - Jul 2025

- **GPA:** 3.3/4
- **Thesis:** "Study on the Chemical Composition and Antifungal Activity of the n-Hexane Extract Fraction of *Kaempferia galanga* L. Rhizome."

High School for Gifted Students – Hanoi National University of Education

- **GPA:** 9.2/10

Aug 2017 - June 2020

Experience

Math QD Redcons – Education Center

Teaching Assistant → Teacher & Class Manager

Sep 2020 – Now

- Design and prepare lesson plans, teaching materials, interactive exercises, and educational games.
- Adapt teaching methods and materials to students' learning levels and individual needs.
- Develop differentiated learning activities for high-achieving and struggling students.
- Monitor student progress and manage classroom activities.

Research Project - Hanoi University of Science and Technology (HUST)

Project member

Jun 2022 – July 2024

Project: Applying Design Thinking as a Teaching Method in Industrial Design

(Supervisors: Assoc. Prof. Thi Ngoc Anh La and M.Arch., Architect Tieu Thanh Le)

- Supported the development and implementation of Design Thinking-based learning activities, student projects, and teaching materials.

Vietnam Academy of Science and Technology (VAST)

Research Intern

Feb 2025 – July 2025

(Supervisors: Assoc. Prof. Dinh Hoang Vu and Assoc. Prof. Dang Quang Le)

- Conducted experimental research and data analysis under academic supervision.
- Supported research planning, experimental procedures, and scientific documentation
- Analysed research findings and contributed to academic reports and research outputs

Public and Academic work

Conference

- **Vu, N. T. H.** & La, T. N. A., (2026). *A Proposed Model for Integrating AI into Product Design Thinking Education*. International Conference on Emerging Technologies and Education (ICETE 2026), Melbourne Institute of Technology, Australia.
- La, T. N. A., Le, T. T., & **Vu, N. T. H.** (2024). *Application of Design Thinking as a Teaching Method in the Industrial Design Course*. International Conference on Educational Science and Foreign Language Teaching (ICEF 2024), Hanoi University of Science and Technology.

Journal

- Cong, D. V., Binh, V. T. P., Khanh, T. N., **Vu, N. T. H.**, Hoang, V. D., Thanh, H. M., & Quang, L. D. (2025). *Development of a Herbal Nanoemulsion and Evaluation of Its Antifungal Activity against Alternaria solani and Rhizoctonia solani*. Journal of Science and Technology – Hanoi University of Industry, 61(5B), 273–279. <https://doi.org/10.57001/huih5804.2025.179>
- Cong, D. V., Binh, V. T. P., Khanh, T. N., **Vu, N. T. H.**, Hong, N. T. B., Huyen, D. T. T., Linh, P. K., Thanh, H. M., Hoa, N. T., & Quang, L. D. (2025). *Preparation and In Vitro Test of Insecticidal Activity of NANO–BI against Tetranychus sp.* TNU Journal of Science and Technology, 230(14), 249–255. <https://doi.org/10.34238/tnu-jst.13091>

Leadership & Activities

ICTSV Support & Development Team

Vice President

Oct 2020 – Nov 2023

- Coordinated academic and student activities involving up to approximately 2,000 participants.
- Worked with university departments, lecturers, students, and external partners.

SILEN'T Workshop

Head Organize

Oct 2020 – Dec 2020

- Led an educational workshop on social awareness topics and coordinated speakers, content, and communications.
- Engaged approximately 500 student participants.
